

## Twin City News Notes

Mrs. Harry E. Bloomberg of North Cicott ave. is entertaining at a party this afternoon to mark the second anniversary birthday of her little son, John Norman. There will be eight small folk accompanied by their mothers and among them chiefly will be the little lad's cousins who are included as Winifred and Arthur Hill, Ruth and Richard Tangerman, and Gilbert Benson. The decorations will be of a patriotic selection and a dainty cake with flickering candles will be the center attraction with miniature flags as souvenirs. The children will be afforded juvenile pastime.

Mrs. W. C. Huber of South Forsythe ave. spent yesterday in Hammond, the guest of friends.

Mrs. Otto Decker of South Magoun ave. has departed for Mackinaw Island for her annual pilgrimage to escape the dire hay fever she is subjected to. There are many Twin City people embarking for the islands at the present time in advance to the season marked for the prevalence of the pollen infection.

Mr. and Mrs. John Haugh of North Magoun ave. are enjoying the breezes at Lake Geneva, Wis., for a couple of weeks.

Mr. and Mrs. J. M. Walsh of South Baring ave. have gone to Warsaw, Ind. to spend their vacation period.

Contractor Roy Clark of Grapevine st. and his wife are touring through Idaho and expect to be gone a few weeks longer.

J. W. Galvin is making preparations to leave for Nashville, Tenn., to police, and will be accompanied on the trip by his daughters, Miss Mae Galvin and Mrs. Baylow Dickey. They will drive through in their new Cadillac car.

## Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—adv.

The T. W. Campbell family of Fir st. will be leaving to spend the balance of the summer at Lake Geneva, Wis., and will make the journey in their car.

Mrs. Carl Krieger of Grapevine st. and her little daughter are visiting in the East for a few weeks.

Many are hoping for fair weather for Sunday ford there are many picnics scheduled to down in the country and St. John seems to be the chosen spot for most of the outings while Cedar Lake comes in second in favor.

The trips for the larger picnic parties are made in motor service trucks.

Mr. and Mrs. James McQuiken of Fir st. are leaving today for a trip through Pennsylvania, the home of many of their relatives and they expect to be gone three weeks.

Mr. and Mrs. M. J. Broderick of North Baring ave. have as their guests Mr. and Mrs. George Kegel of Pittsburgh, Pa., the latter having been a school mate of Mrs. Broderick back in the eastern city.

## TUBE BAG SAVES THE TIRES

"Box worn" means about the same thing in auto inner tubes as "shop worn" means in clothes. Both are damaged goods.

When an inner tube leaves a rubber

factory, it is ordinarily packed in waxed paper and placed in a box to keep it in perfect condition from factory to customer. But this waxed paper packing which is so essential to insure its resiliency and elasticity—in other words, its life quality—is not intended to be the packing which will protect the tube carelessly thrown in the tool box of a car.

Here the constant jolting and swerving of the car cause the loosely packed tube to chafe against the sides of the box, according to the Miller tire repair school, at Akron, Ohio. As a result, the tube chafes through at the folds. If it is a repaired tube loosely thrown in the tool box, it ordinarily lacks even the protection of the box against cutting on
